CALL FOR SPONSORS

The BIBM Conference

Bioinformatics and biomedicine research is fundamental to our understanding of complex biological systems, impacting the science and technology of fields ranging from agricultural and environmental sciences to pharmaceutical and medical sciences. This type of research requires close collaboration among multidisciplinary teams of researchers in computer science, statistics, physics, engineering, life sciences and medical sciences, and their interfaces.

BIBM was launched in 2007 to provide an open and interactive forum to catalyse the cross-fertilization of ideas from these disciplines and to bridge our knowledge gaps. BIBM is characterized by its rigorous evaluation, the concern on responsible use of technology and emphasis on new computational methods and practical applications in high throughput data-rich areas in biology and biomedical engineering.

2018 marks the 11th edition of BIBM. BIBM 2018 will be held in Madrid, Spain from 3rd to 6th December.

Building community

Each year BIBM brings together hundreds of the top researchers, scientists, students and entrepreneurs from computer science, biology, chemistry, medicine, mathematics and statistics. Top corporations in these knowledge areas send employees to BIBM to present and hear the latest research, and BIBM provides a special industry track to present the most advanced innovations in the area and favour talent connection.

What sponsorship brings

Sponsorship of BIBM 2018 brings visibility to sponsors and is the place to connect to talent, meet, influence and learn from top scientists, researchers and entrepreneurs building the future of bioinformatics and bioengineering and in turn, tomorrow's healthcare and biology.

This is an ideal way to demonstrate your organization's commitment to these fields – including bioinformatics, computation biology, sequencing, genomics, cheminformatics, pharmacogenomics, computational modelling, data mining, artificial intelligence, big data for biomedicine, medical informatics, healthcare informatics, and many other areas at the frontier of technological innovation – and to publicize this support to many leaders and students in the field.

BIBM 2018 offers several sponsorship packages:

	Platinum (10k€ or greater)	Gold (5k € or greater)	Silver (2k € or greater)	Bronze (1k€ or greater)
Your company or institution listed in the BIBM 2018 conference site.	✓	✓	✓	✓
Acknowledge your contribution and offer thanks at the opening and closing sessions.	✓	✓	✓	✓
Possibility to introduce materials and giveaways with the conference material for each attendee.	✓	✓	✓	
Possibility to name some of the events (e.g. receptions, lunches and breaks).	✓	✓	✓	
Your company or institution appearing in the conference Proceedings, which are published by the prestigious IEEE Press and can be accessed globally through the IEEEExplore Digital Library.	✓	✓	✓	
Support for on-site recruitment.	✓	✓		
Conference stand.	✓ Preferential position	✓		
Free registrations to the main conference and workshops, including banquet tickets.	3	1	Free day pass	1 Award dinner ticket

We are open to discuss other types of sponsorships.

Would you like to join us as a BIBM 2018 sponsor?

For details and questions, please contact Prof. Zoraida Callejas at zoraida@ugr.es
